SMART Goals setting in 5 easy steps

-  **S**PECIFIC
Exactly what is it you want to achieve in your school and to what extent? A good objective statement or goal should answer the question “**which, what, who, where, when, why**”?
-  **M**EASURABLE
You need to be able to track the progress and measure the outcome. A good objective statement should answer the question “**how much or how many**”?
-  **A**CTION-BASED
Say what you are going to do. A good objective statement **should describe a result**.
-  **R**EALISTIC & **R**ELEVANT
The objective should be **challenging** but **realistic** and also **relevant**. Objectives may appear optimistic initially, but as you develop strategies to achieve them they become realistic.
-  **T**IME-BASED
Objectives should include a time limit. A good objective statement should include “**by when**” do you want to achieve.
