Think. Would you feel better if you were able to talk to someone about your feelings? Recognise when you need support by thinking it through. If you did talk to someone, how would you expect to feel afterwards?

Action. Involve someone who you know that you can talk to. Think about who that might be.

Language. Explain how you feel and what you think the problem is as well as you can. Use lots of words to describe how you feel and why you feel you need help. Be as open as you feel you can.

Know there is always someone you can go to who can help. No matter what the challenge, there is always someone who will support you. Know that things will get better.

Something has upset you at home.			
You're stuck on a piece of work.

You feel sick.
